Onze bureaublad & woordenschat over The Netherlands.Q: Will a switch handle incoming calls I have a network where a new phone line is connected to the closest switch to it, for portability purposes. Is it possible for this switch to handle incoming calls? Or do I have to buy a new phone line? A: In order for a switch or PBX to handle incoming calls, there have to be a feature provided on the switch or phone which allows this. Most switches these days have call forwarding enabled. This would allow the calls to continue to the next device whether or not that device is also a phone. By all accounts, Jayda Fransen has been a big success since she joined Ukip as the party's deputy leader in the summer of 2017. Fransen has been a growing presence within Ukip's ranks, becoming the party's chief minister for the Eastern Region. Opinion polls suggest that Fransen could become a key player within Ukip in the years ahead. Even Nigel Farage admits that Fransen could, by the middle of the next decade, "be the new co-chair of the party". But there are those within the party who simply aren't fans of Fransen and their opponents of everything that she stands for. They don't just run Facebook groups denouncing Fransen but also recruit members from outside the party to attack her. The Twitter account @UkipSawbones claims to be a "fanfiction collaboration between the NHS, Home Office, police and MI5 based on the idea that Mrs Farage is a saboteur" and goes on to say that she is "a Russian agent". We decided to dig into the account and put some pressure on Fransen's supporters to expose the abuse. We found the Twitter account was registered to an individual living in a flat in Caledonian Road, London. Using the Twitter handles set up on the account, we managed to contact the man who lives there and who is now receiving a number of threats. This is what we found. (Image: PA) The account was registered in August 2017 but it was no more than a small collection of tweets highlighting the voices of other Leave voters. Then, things started to change. In November 2017, the first mention of Fransen appeared on Twitter.
